Analysis: check trading terms

An index rise alone does not establish the ability to sell at a desired price. Check individual-stock volume, spreads and order conditions.

Unverified indicators

Fresh comparable gold, fuel, agricultural and bond values remain unverified. Fuel lists and rice/pulse materials were checked; no old values or estimates fill gaps. Missing does not mean unchanged.

01 / DIPLOMACY · 12 NOV 2026

Thai visit: borders and water

Thailand's foreign ministry said Deputy PM and Foreign Minister Sihasak visited Myanmar on 12 November. Talks covered border safety, drugs, online scams and cross-border river pollution.

What the statement establishes

They intend to convene the water-quality working group soon and conduct a joint senior-level field visit. They also discussed trade facilitation, labour management and energy security. Thailand urged reduced civilian harm and expanded humanitarian access.

THAI ↗

Analysis: affected businesses

Border logistics, employers and water users should follow the dialogue. The statement alone establishes no customs or work-permit changes, or improved water quality.

Next checks

Check working-group dates, agency notices and operations at each crossing. River measurements and local safety were not independently verified here.

09 / TRADE · REPORTED 12 NOV

Trade talks with the EEC

An MNA state-news report published by MDN on 12 November says Commerce Minister Tun Ohn met the Eurasian Economic Commission's Daniiar Imanaliyev and delegation on the evening of the 11th.

Discussion	Reported scope
Export destinations	Russia, Belarus, Kyrgyzstan, Kazakhstan, Armenia
Products	Pawsan rice, pulses, sesame, CMP contract-manufactured goods, marine products
Investment and other	Attracting investment to Dawei SEZ; digitizing tax collection

EEC ↗

Analysis: conditions for business

Exporters and processors can use this for market exploration. Talks do not establish orders or tariff preferences. Check each destination's import standards, payment routes and freight costs separately.

Limits and next checks

The report does not establish signed contracts, investment amounts or implementation dates. Do not treat this as executed investment or revenue pending EEC-side statements and formal terms.
