Today: updates and implementation

Three checks for today

Separate original notices from practical service conditions.

MCB branch and service terms

MCB's original 4 November notice confirms its 59th branch nationally and 21st in Yangon Region. Opening a branch does not establish loan approval or transfer guarantees.

Evidence and analysis →

Market observations: 5 and 6 Nov

Kyodai is dated the 6th; CBM, YSX and MRP the 5th. Reference, market-trading, local indicative and remittance rates have different terms. Do not fill gaps with old values.

Evidence and analysis →

CONPC: a disclosure update

YSX posted the 2025–2026 annual report on 5 November. This follows last week's listing-approval case. The disclosure alone does not establish IPO completion or trading commencement.

Evidence and analysis →

Coverage: 31 Oct–6 Nov UTC through retrieval. Compared with the 5 Nov daily and 31 Oct weekly. Analysis is not a company decision or investment recommendation.

Index and liquidity (analysis)

An index rise is not the same as rising turnover. One day's market aggregate does not establish execution or liquidity in an individual stock.

Unverified items

Current bond prices and yields are unverified. Stock-price changes are not bond yields. Check specific current notices for trading commencement and foreign-order conditions.

02 / FINANCE · ORIGINAL NOTICE

MCB opens Hlaing Tharyar branch

Myanmar Citizens Bank (MCB), in a notice dated 4 November, announced its Hlaing Tharyar branch opened that day with banking services from opening. It describes this as its 59th branch nationally and 21st in Yangon Region. The one-page original notice on YSX was checked.

MCB · notice 4 Nov 2026 · p.1 ↗

Business relevance (analysis)

The branch may add a service option for nearby businesses. The notice does not guarantee a particular loan, cash-withdrawal limit or foreign-currency transfer. Branch expansion and secured financing are separate.

Before using the branch

Confirm opening hours, corporate-account documents, fees and transfer cut-off times with the bank. Existing-account transfer arrangements and supported services also need separate checks. No site visit or direct bank enquiry was made.

Keep gold categories separate

The screen's 16-pae category shows buy 10,200,000 / sell 10,300,000 MMK per kyattha, as defined in the service's calculation methodology. Its "new price" category differs. Workmanship, testing and shop deductions are separate; these are not firm quotes.

Current CSO values could not be retrieved; PPRD fuel prices remain unverified. Food, fuel and bond gaps remain explicit; old values are not carried forward as unchanged.

What changed since last week

The 31 October weekly covered conditional listing approval. This is a follow-up on newly available annual information, not another new listing case. The materials checked here do not establish IPO completion or the first trading date.

Use in supplier review (analysis)

Use it to map supply areas; verify specific distribution rights, stock, delivery times and maintenance before contracting. An annual report does not guarantee delivery capability. This issue does not audit all financial notes or value the investment.
